CONSENT FOR ACCESS TO PROPERTY

5M, Incorporated hereby consents to authorized representatives of the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY (EPA) entering and having access to certain 5M, Incorporated (5M, Inc.) property located within Sections 1 and 12, Township 41 South Range 14 West, Salt Lake Base and Meridian, Washington County, Utah (Silver Reef, Leeds Site) for the following Purposes:

- o the taking of such soil, water and air samples as may be determined to be necessary;
- o the sampling of any solids or liquids stored or disposed of on the property;
- o the drilling of holes and installation of monitoring wells and subsurface investigation;
- o other action related to the investigation of surface or subsurface contamination; and,
- o for the removal or remediation of contamination.

This consent is for a period of 1 - 2 years as to be negotiated between the parties, from the date of this document.

This consent for access to certain 5M, Inc. properties described above is subject to the following statements and conditions:

1. 5M, Inc. hereby states that they are being threatened and forced at this time to provide this Consent to the EPA under an EPA Administrative Order, on or prior to the 26th of May 1995. These EPA threats include legal action by EPA in Federal Courts to force access upon 5M, Inc. lands, including the imposition of daily fines and penalties up to \$25,000 per day, as well as other potential suits and legal actions.

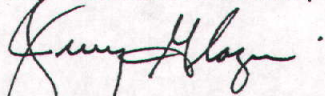

2. This Consent For Access to 5M, Inc. properties is issued under duress and with the belief that EPA intends to begin Removal and Remediation acts upon the property which will soon render very valuable 5M, Inc. equipment, materials and facilities unuseable. Further, that 5M, Inc. may infact lose daily cash flow and funding now pending which may result in the liquidation of 5M, Inc. because of EPA,s involvement and unwillingness to allow 5M, Inc. to negotiate remedial and startup operations

with the State of Utah under the direction of the appropriate State Divisions. Further that the present and future livelihood of 5M, Inc., its owners and shareholders may be lost, that valuable corporate assets may be lost or rendered unworkable because of EPA actions, and that many important and vital rights given individuals and corporations under the U.S. Constitution and the Bill of Rights are being violated.

3. That the EPA along with its officers, directors, employees, representatives, attorneys, contractors, sub-contractors or other associates will be held accountable, personally and collectively, for any and all values deemed to have been lost by 5M, Inc., its officers or shareholders due to any and all actions taken against 5M, Inc., its officers or shareholders, by EPA. This may include, but is not limited to, mental and/or health problems suffered from EPAs tyrannical duress and pressure tactics. Legal actions pertaining to the above issues, agencies and individuals may be initiated at any time by 5M, Inc., its officers or shareholders.
